DETAILED ACTION

Request for Continued Examination

1. The Request for Continued Examination filed on 9/11/02 (RCE) under 37 CFR 1.114 based on parent Application No. 09/584,182 is acceptable and a RCE has been established. An action on the RCE follows.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 3-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Holt (GB 2,140,765).

Holt discloses a machine for rolling up flexible articles and describes a method for its use. Article 10 is inserted into receptacle 22 via a hollow tube section 20 having first and second openings; see figure 1. The first opening is a cone with a flared section connected to the second narrower opening. The receptacle 22 is positioned over the second narrow opening of the tube 20 and the rolled article 10 is inserted through first flared opening, through second narrow opening, and into receptacle 22 in a predetermined orientation and then rotated in an opposite direction of winding the article 10; see column 2, lines 104-111. The tube section is mounted on packaging station 21, a stationary structure.

Response to Arguments

4. Applicant's arguments filed 9/11/02 have been fully considered but they are not persuasive.

Holt describes the wound article entering the cone then given reverse rotation; see page 1, lines 105-110.

Conclusion

5. This is a RCE of applicant's earlier Application No. 09/584,182. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher R Harmon whose telephone number is 703-308-8643. The examiner can normally be reached on Monday-Thursday from 8-6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rinaldi Rada can be reached on 703-308-2187. The fax phone numbers for the organization where this application or proceeding is assigned are 703-305-3579 for regular communications and 703-305-3579 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-1148.
